SEPARATED QUARTERLY REPORT FOR THE FIRST QUARTER OF 2022

Separated financial results for the first quarter of 2022 (Q1 2022) as compared to the first quarter of 2021 (Q1 2021) (unaudited)

## Separated Quarterly Report for Q1 2022

## Highlights of the three months ended on March 31, 2022 (Q1 2022)

- The turnover of the Company of RON 54,270 thousand during Q1 2022, is by 41,5% lower than Q1 2021;
- Sales of unlicensed activities in the period of 3 months 2022, increased by 12.7% compared to the same period in 2021;
- Licensed activities, especially energy supply, have been reduced prudently to continue safely and efficiently, taking into account the following external and internal factors:
  - The international conjuncture of increasing the prices of CO2 emission certificates, the increases of prices for gas, electricity and oil;
  - The current energy crisis generated by the increase in post-pandemic consumption and the conflict in Ukraine;
  - Reducing the production of electricity and gas to ensure the demand from Romania, simultaneously with the increase of imports of electricity and gas;
  - Increasing financing costs.

Indicator	Q1 2022	Q1 2021
Revenues from unlicensed activities Revenues from licensed ativities	27,188 27,082	24,131 68,662
Turnover (thousand RON)	54,270	92,793
EBITDA* (thousand RON)	11,915	4,130
EBITDA margin (%)	22.0%	4.5%
Net Result (thousand RON)	9,726	1,472
Net Result per share (RON)	0.0144	0.0022

\* EBITDA represents earnings before interest, taxes, depreciation, and amortization.

The following aspects finalized the obtaining of the results in the first quarter of the year:

- The production activity took place in more difficult supply conditions than in previous years. The consequences of the COVID-19 pandemic and the war in Ukraine are high prices of raw materials and materials that fueled rising inflation and extended delivery times, in many cases up to 6 months.
- For the licensed activity, the decrease of the expenses meant a reduction of the costs specific to the activity, an efficiency of it, although the sales decreased.
- Activities for arranging and improving the buildings from Calea Rahovei 266-268 were carried out in order to better manage and maintain competitiveness on the rental space market;
- Continuation of the development programs for the charging equipment for electric cars which started in the previous years.

## Sales

Electromagnetica is a company that operates in several fields, the most important being:

- Activities in the field of energy efficiency (production of LED lighting fixtures, systems and solutions of LED lighting;
- Renting office space, industrial space, land and provision of utilities;
- Production of electricity from renewable sources (produced in low power hydroelectric power plants) and supply of electricity.

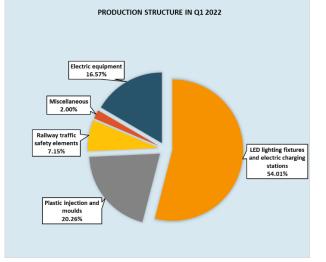

As aggregation criterion for reporting per business segments, the Company used the type of the regulatory environment and identified the following business segments for which it presents the information individually:

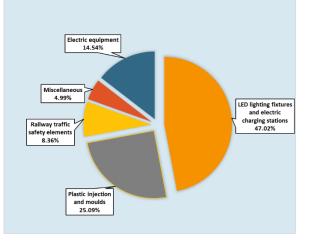

- Licensed activity electricity supply and production
- Unlicensed activity industrial production and space rental.

The aggregation criterion is based on the necessary license for carrying out certain activities, as well as its requirements, including the submission of individual financial statements. The activities of production and supply of electricity have been aggregated, taking into consideration the fact that they represent an integrated process for a part of their operations.

## New standards and amendments to the existing standards issued by IASB but not yet adopted by the EU

At present, IFRS as adopted by the EU do not significantly differ from regulations adopted by the International Accounting Standards Board (IASB) except for the following new standards and amendments to the existing standards, which were not endorsed for use in EU.

- **IFRS 14 "Regulatory Deferral Accounts"** (effective for annual periods beginning on or after 1 January 2016) the European Commission has decided not to launch the endorsement process of this interim standard and to wait for the final standard,
- Amendments to IAS 1 "Presentation of Financial Statements" Classification of Liabilities as Current or Non-Current (effective for annual periods beginning on or after 1 January 2023),
- Amendments to IAS 12 "Income Taxes" Deferred Tax related to Assets and Liabilities arising from a Single Transaction (effective for annual periods beginning on or after 1 January 2023),
- Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" Sale or Contribution of Assets between an Investor and its Associate or Joint Venture and further amendments (effective date deferred indefinitely until the research project on the equity method has been concluded),

The Company anticipates that the adoption of these new standards and amendments to the existing standards will have no material impact on the financial statements of the Company in the period of initial application.

Hedge accounting for a portfolio of financial assets and liabilities whose principles have not been adopted by the EU remains unregulated.

## More details about individual standards, amendments to existing standards and interpretations that can be used as appropriate:

- **IFRS 14 "Regulatory Deferral Accounts"** issued by IASB on 30 January 2014. This standard is intended to allow entities that are first-time adopters of IFRS, and that currently recognise regulatory deferral accounts in accordance with their previous GAAP, to continue to do so upon transition to IFRS.
- Amendments to IFRS 3 "Business Combinations" Reference to the Conceptual Framework with amendments to IFRS 3 issued by IASB on 14 May 2020. The amendments: (a) update IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework; (b) add to IFRS 3 a requirement that, for transactions and other events within the scope of IAS 37 or IFRIC 21, an acquirer applies IAS 37 or IFRIC 21 (instead of the Conceptual Framework) to identify the liabilities it has assumed in a business combination; and (c) add to IFRS 3 an explicit statement that an acquirer does not recognise contingent assets acquired in a business combination.
- Amendments to IFRS 4 "Insurance Contracts" Extension of the Temporary Exemption from Applying IFRS 9 issued by IASB on 25 June 2020. Amendments change the fixed expiry date for the temporary exemption in IFRS 4 Insurance Contracts from applying IFRS 9 Financial Instruments, so that entities would be required to apply IFRS 9 for annual periods beginning on or after 1 January 2023.
- Amendments to IFRS 9 "Financial Instruments", IAS 39 "Financial Instruments: Recognition and Measurement", IFRS 7 "Financial Instruments: Disclosures", IFRS 4 "Insurance Contracts" and IFRS 16 "Leases" - Interest Rate Benchmark Reform — Phase 2 issued by IASB on 27 August 2020. The changes relate to the modification of financial assets, financial liabilities and lease liabilities, specific hedge accounting requirements, and disclosure requirements applying IFRS 7 to accompany the amendments regarding modifications and hedge accounting:
  - a) **Modification of financial assets, financial liabilities and lease liabilities -** the IASB introduces a practical expedient for modifications required by the reform (modifications required as a direct consequence of the IBOR reform and made on an economically equivalent basis). These modifications are accounted for by updating the effective interest rate. All other modifications are accounted for using the current IFRS requirements. A similar practical expedient is proposed for lessee accounting applying IFRS 16.
  - b) Hedge accounting requirements under the amendments, hedge accounting is not discontinued solely because of the IBOR reform. Hedging relationships (and related documentation) must be amended to reflect modifications to the hedged item, hedging instrument and hedged risk. Amended hedging relationships should meet all qualifying criteria to apply hedge accounting, including effectiveness requirements.
  - c) **Disclosures -** in order to allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity's progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition, the amendments require that an entity discloses information about:
    - how the transition from interest rate benchmarks to alternative benchmark rates is managed, the progress made at the reporting date, and the risks arising from the transition;
    - quantitative information about non-derivative financial assets, non-derivative financial liabilities and derivatives that continue to reference interest rate benchmarks subject to the reform, disaggregated by significant interest rate benchmark;
    - to the extent that the IBOR reform has resulted in changes to an entity's risk management strategy, a description of these changes and how is the entity managing those risks.
  - d) The IASB also amended IFRS 4 to require insurers that apply the temporary exemption from IFRS 9 to apply the amendments in accounting for modifications directly required by IBOR reform.
- Amendments to IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture issued by IASB on 11 September 2014. The amendments address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business.

- Amendments to IFRS 16 "Leases" Covid-19-Related Rent Concessions issued by IASB on 28 May 2020. The amendments exempt lessees from having to consider individual lease contracts to determine whether rent concessions occurring as a direct consequence of the covid-19 pandemic are lease modifications and allows lessees to account for such rent concessions as if they were not lease modifications. It applies to covid-19-related rent concessions that reduce lease payments due on or before 30 June 2021.
- **Amendments to IFRS 16 "Leases"** Covid-19-Related Rent Concessions beyond 30 June 2021 issued by IASB on 31 March 2021. Amendments extend by one year the application period of the practical expedient in IFRS 16. The relief was extended by one year to cover rent concessions that reduce only lease payments due on or before 30 June 2022.
- Amendments to IAS 1 "Presentation of Financial Statements" Classification of Liabilities as Current or Non-Current issued by IASB on 23 January 2020. The amendments provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. Amendments to IAS 1 issued by IASB on 15 July 2020 defer the effective date by one year to annual periods beginning on or after 1 January 2023.
- Amendments to IAS 1 "Presentation of Financial Statements" Disclosure of Accounting Policies issued by IASB on 12 February 2021. Amendments require entities to disclose their material accounting policies rather than their significant accounting policies and provide guidance and examples to help preparers in deciding which accounting policies to disclose in their financial statements.
- Amendments to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" Definition of Accounting Estimates issued by IASB on 12 February 2021. Amendments focus on accounting estimates and provide guidance how to distinguish between accounting policies and accounting estimates.
- Amendments to IAS 12 "Income Taxes" Deferred Tax related to Assets and Liabilities arising from a Single Transaction issued by IASB on 6 May 2021. According to amendments, the initial recognition exemption does not apply to transactions in which both deductible and taxable temporary differences arise on initial recognition that result in the recognition of equal deferred tax assets and liabilities.
- Amendments to IAS 16 "Property, Plant and Equipment" Proceeds before Intended Use issued by IASB on 14 May 2020. The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss.
- Amendments to IAS 37 "Provisions, Contingent Liabilities and Contingent Assets" Onerous Contracts — Cost of Fulfilling a Contract issued by IASB on 14 May 2020. The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.
- Amendments to various standards due to "Improvements to IFRSs (cycle 2018 -2020)" issued by IASB on 14 May 2020. Amendments to various standards resulting from the annual improvement project of IFRS (IFRS 1, IFRS 9, IFRS 16 and IAS 41) primarily with a view to removing inconsistencies and clarifying wording. The amendments: (a) clarify that subsidiary which applies paragraph D16(a) of IFRS 1 is permitted to measure cumulative translation differences using the amounts reported by its parent, based on the parent's date of transition to IFRSs (IFRS 1); (b) clarify which fees an entity includes when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognise a financial liability. An entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf (IFRS 9); (c) removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example (Illustrative Example 13 accompanying IFRS 16); and (d) removes the

requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique (IAS 41).
